

**Bali Safari and Marine Park
A Wild Way to Spend A Day...or Longer**

Just almost four years old, Bali Safari and Marine Park has already been hailed as one of Bali's most fascinating and world class attractions.

Home to over 60 species of animals from Indonesia, Africa and India, Bali Safari and Marine Park is more than simply experience; it is also a great day out for all ages offering everything from animal shows to amusements as well as their famous Safari rides.

Located on 40 hectares of pristine forest in Gianyar, Bali's Park owned by the world renowned Taman Safari Indonesia, a name known for both its creative animal exhibits and its tireless conservation work.

Building upon over twenty years of knowledge gained in two sister parks based in Java, and drawing upon the latest in park design concepts, Bali Safari and Marine Park exceeds all expectations.

Throughout the park the legends of Bali have been incorporated into the landscaping and the stories re-enacted in the park with the help of some of the fascinating animals who call the park home.

In-house breeding programs, shows and exhibits that highlight the current concerns for various species and a whole host of fun, family attractions, has resulted in the park earning the reputation as, "One of the best days out in Bali."

"The park is designed so that everyone goes home with a message about the animals we have on display, many of which are facing reduced numbers and even extinction. The park has a serious side, which includes our successful breeding programs but is definitely about having fun," explains Hans Manansang the General Manager of Bali Safari and Marine Park.

In between the animal visit and shows guest can cool off in the water park where water slides and a pool are popular attractions before heading for the fun zone to enjoy the rides.

Getting up close with the animals is a highlight here and whether it is meeting baby elephants, watching them bathing, or having a photo opportunity with some of our younger members, including a lion, orangutan and a young leopard, Bali Safari and Marine Park is a memorable way to spend the day.

The park also offers a host of dining options, whether it is a quick bite at one of

BALI SAFARI & MARINE PARK

our food courts outlets, a satisfying meal at the excellent Tsavo Lion Restaurant overlooking the lion compound or a casual lunch at Uma restaurant offering international specialties cooked by our chefs in an open kitchen.

Bali Safari and Marine Park are committed to providing the very best environment for our large and fascinating collection of animals as well as providing our guests with one of the best days out in Bali.

Some of our guests enjoy it so much they want to stay, which is possible in the beautifully designed resort area known as Mara River Safari Lodge where each room overlooks the African Safari area and guests are welcome to get up close and personal with some of the tamer species.

Bali Safari and Marine Park is without doubt a wild way to spend a day...or longer.
